Whole school approach across the care continuum

We explicitly teach, recognise and reinforce positive student behaviour and behavioural expectations by:

Using Real School as a whole school approach

We follow the restorative continuum to elevate student behaviour, empathy and relationships

We support each other to elevate student behaviour restoratively

- We work together restoratively through
 We create safe, supportive spaces in a lens of high expectations and high support.
- Staff work up and down the continuum
- We build trusting, supportive classroom communities where we find effective ways to respectfully hold ourselves and one another accountable for the impact of our own behaviour.
- engage in and learn from crucial honest and sometimes difficult conversations.
- Teachers are supported by leadership to embed Restorative Practices in practice.
- skills and knowledge to build trusting relationships and repair harm
- * We use the Restorative process to solve problems and differentiate the outcome to meet student need.
 **Staff work collaboratively with families as valued partners to support students' engagement, conduct and achievement.
 - We commit to embedding circles as daily pedagogical practice.

Restorative questions

For those who have done

- What have you thought about since?
 Who has been affected by what you have done? In what way?
- What do you think you need to do to make things right again?

For those who have been harmed

- What happened?

 What were you thinking about

 What impact has this incident had co you and others? · What did you think when you realised

 - · What has been the hardest thing
 - What do you think needs to happen to make things right?
